

Handling the Pending Inspection Status

1. Go to the drop-down menu **Release**.
2. Click on **Pending Inspection Intents**.
3. A new tab called **Pending Inspection Intents** will open. This tab displays an overview of all pick-up rights that currently have a pending inspection intent.
4. In the overview, right-click on a pick-up right. A context menu will appear with the following options:
 - a) **Request Pending Inspection**
 - b) **Approve Pending Inspection**
 - c) **Reject Pending Inspection**

The screenshot shows the 'German Ports Release Order [ctd]' interface. The 'Release' dropdown menu is open, showing options like 'Request RAP status', 'Request validity', 'Request restore', 'Pending Inspection Intents', 'Pick-up rights with active Pending Inspection', and 'Master data'. The 'Pending Inspection Intents' tab is selected, showing a table with columns: Container, Pick-up right, Terminal, Intent terminal, Pick-up right issuer, Intent p/u right issuer, and Time stamp. A context menu is open over the first row, showing options: 'Request Pending Inspection' (4A), 'Approve Pending Inspection' (4B), 'Reject Pending Inspection' (4C), 'Update', 'Search for', 'Print', 'Export', 'Select all Rows/Deselect all Rows (toggle)', 'Resize Columns', 'Display row as text', 'Table settings', and 'Close'.

4A) Request Pending Inspection

- By clicking on **Request Pending Inspection**, you can actively request a pending inspection. A new pop-up window called „Request Pending Inspection“ will open where the **container** as well as **PickUpRightIssuerID** has to be entered to complete the request

4B) Approve Pending Inspection

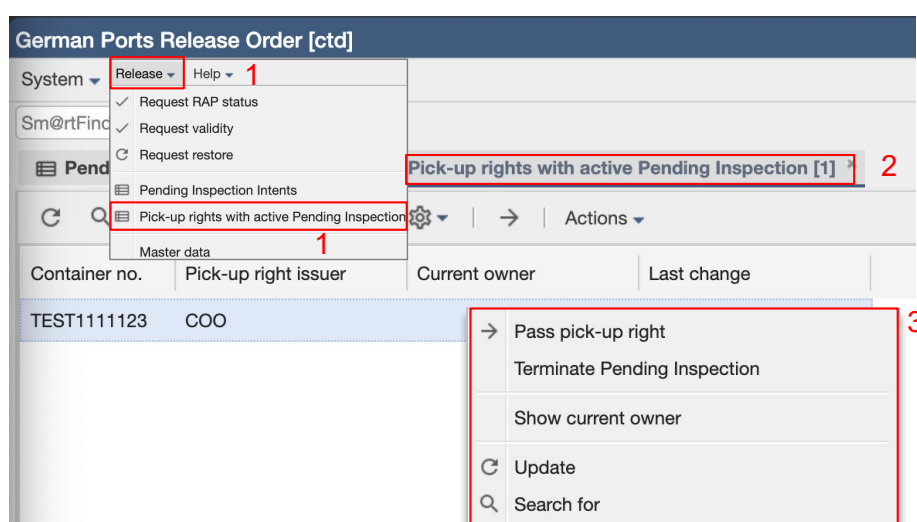

- By clicking on **Approve Pending Inspection**, the pending inspection will be approved and the container will be set to the 'Pending Inspection' status

4C) Reject Pending Inspection

- By clicking on **Reject Pending Inspection**, the entire process comes to an end.

Overview: Pick-Up Rights with Active Pending Inspection

1. Open the drop-down menu **Release** and select **Pick-Up Rights with Active Pending Inspection**
2. A new tab will open called **Pick-Up Rights with Active Pending Inspection**, which shows all pick-up rights with an active pending inspection.
3. Here, you can right-click on a pick-up right to open a context menu with different actions, such as **Pass Pick-Up Right** or **Terminate Pending Inspection**.
